Allstate Identity Protection employee benefit plans

Employee-paid pricing

Employees appreciate benefits that provide value to their lives. Giving your employees access to Allstate Identity Protection helps you provide a generous benefits package that employees can tailor to their needs.

Allstate Identity Protection Pro Plus

Employee	\$9.95 /employee/month
Employee plus family	\$17.95 /family/month

Allstate Identity Protection Pro

Employee	\$7.95 /employee/month
Employee plus family	\$13.95 /family/month

Our definition of family

We offer a generous definition of family, using “under roof, under wallet” as our guideline. As long as the dependent lives within the employee’s household, or the employee supports the individual financially, they are eligible to enroll at any age. This includes college-aged children and elderly parents. Deceased family members can also be added; if a deceased loved one is or was the victim of account takeover or fraud, we’ll fully remediate it.

Allstate Identity Protection Pro vs. Allstate Identity Protection Pro Plus: What’s the difference?

Allstate Identity Protection Pro Plus comes with a unique tool, the Allstate Digital Footprint, which allows users to see who has their data. Our Pro Plus plan also provides 401(k) and HSA stolen fund reimbursement and tax fraud refund advances.[†]

IP address monitoring — exclusive to Allstate Identity Protection Pro Plus — makes it easier to detect and inform employees if they’re compromised. Our data shows satisfaction and engagement are highest when participants are enrolled in Pro Plus.

[†]Identity theft insurance underwritten by insurance company subsidiaries or affiliates of Assurant. The description herein is a summary and intended for informational purposes only and does not include all terms, conditions and exclusions of the policies described. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

The most advanced identity protection available

Allstate Digital Footprint

Our unique tool, part of Allstate Identity Protection Pro Plus, helps users see what accounts they have online and detect if personal information has been exposed.

Comprehensive monitoring and alerts

Our proprietary monitoring platform detects high-risk activity to provide rapid alerts at the first sign of fraud, so participants can detect fraud at its earliest sign, enabling quick restoration for minimal damage and stress.

Dark web monitoring

In-depth monitoring goes beyond just looking out for a participant's Social Security number. Bots and human intelligence scour closed hacker forums for compromised credentials and other personal information. Then we immediately alert participants who have been compromised.

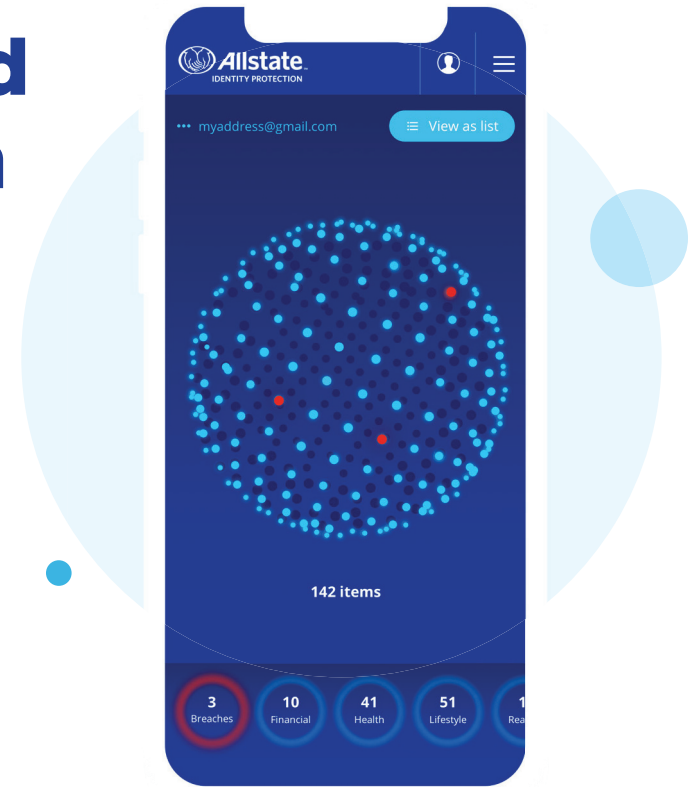

High-risk transaction monitoring

We send alerts for non-credit-based transactions like student loan activity and medical billing.

Account activity

Participants are alerted when unusual activity on their personal banking accounts could be a sign of account takeover.

Financial activity monitoring

Alerts triggered from sources such as bank accounts, thresholds, credit and debit cards, 401(k)s, and other investment accounts help participants take control of their finances.

Social media monitoring

Participants can keep tabs on social accounts for everyone in their family, with monitoring for vulgarity, threats, explicit content, violence, and cyberbullying. As an exclusive to Allstate Identity Protection Pro Plus, we monitor for account takeovers that could lead to costly reputation damage.

IP address monitoring

Exclusive to Allstate Identity Protection Pro Plus, we look for malicious use of our users' IP addresses. IP addresses may contribute to a profile of an individual, which — if compromised — can lead to identity theft.

Plan feature details (continued)

Lost wallet protection

Easily store, access, and replace wallet contents. Our secure vault conveniently holds important information from credit cards, credentials, and documents.

Solicitation reduction

Opt in or out of the National Do Not Call Registry, credit offers, and junk mail.

Digital exposure reports

Participants can see and identify where their personal information is publicly available on the internet.

Credit monitoring and alerts

We alert for transactions like new inquiries, accounts in collections, new accounts, and bankruptcy filings. Allstate Identity Protection Pro Plus also provides credit monitoring from all three bureaus, which may make spotting and resolving fraud faster and easier.

Data breach notifications

We send alerts every time there's a data breach affecting participants so they can take action immediately.

Credit assistance

Our in-house experts will help participants freeze their credit files with the major credit bureaus. Users can even dispute credit report items from our portal.

Sex offender notifications

We'll notify participants if a sex offender is registered in a nearby area.

Mobile app

Access the entire Allstate Identity Protection portal on the go! Available for iOS and Android.

Best-in-class customer care

Should fraud or identity theft occur, in-house experts are available 24/7 to fully restore compromised identities, even if the fraud or identity theft occurred prior to enrollment. Our expert team is highly trained and certified to handle and remediate every type of identity fraud case. When resolving complex cases of identity theft, our satisfaction score is an industry-leading 100%. We fully manage customers' restoration cases, helping them save time, money, and stress.

\$1 million identity theft insurance

If your employees fall victim to fraud, we will reimburse their out-of-pocket costs.[†]

Stolen funds reimbursement

We'll reimburse participants for stolen funds up to \$1 million, including stolen 401(k) and HSA funds. We'll even advance fraudulent tax refunds.[†]

[†]Identity theft insurance underwritten by insurance company subsidiaries or affiliates of Assurant. The description herein is a summary and intended for informational purposes only and does not include all terms, conditions and exclusions of the policies described. FAQs

Have a question for us? We've got answers, and we're always here to help.

What is a digital footprint?

Whenever you do anything online, like shop for new shoes or “like” a friend’s photo, you leave a trail of personal data behind. All that information adds up to your digital footprint, and it could leave you exposed. The Allstate Digital Footprint, offered as part of Allstate Identity Protection Pro Plus, gives employees a simple way to see and secure personal information, and helps them stop identity theft before it starts.

How do I know that my employees' information will be secure?

The safety of personal information is very important to us. We are SSAE 18 SOC 1 and SOC 2 Type 2 accredited, updated annually. Our standards exceed best practices — both information handling and storage — which has contributed to our track record of zero security breaches.

What makes you unique?

We've spent over 13 years focusing on employee benefits in order to offer the best service for our clients and their employees. This is apparent in the individual attention we give our clients throughout our entire relationship, and our ability to provide content or assistance tailored to each client.

Are employees still covered if they leave the company?

Yes, employees can port their coverage if they leave the company. We maintain employee information for 90 days beyond termination to ensure seamless portability.

What would you consider some of your key differentiators in your monitoring services?

As identity thieves grow smarter and fraud becomes more prevalent, so do the requirements for a robust identity monitoring platform. Empowering tools and enhanced monitoring that enables participants to see and manage their privacy are essential — that's why we offer innovative tools like our Allstate Digital Footprint. The identity protection industry has evolved drastically in recent years. Basic credit monitoring or identity monitoring are no longer the most innovative methods for preserving an individual's privacy and security. We've evolved our services to provide a more proactive approach that includes unique access to dark web forums where hackers operate, ensuring our alerts can come weeks, sometimes months, before a breach is made public. No other identity protection service offers such a breadth, depth, and efficacy of dark web monitoring and alerts. Some of our other differentiators within our monitoring services include social media account takeover, digital exposure reports, and IP address monitoring.
